

Club Spark – Adding Emergency Contact Details

To conform with Covid regulations the Club require attendees to book on to training sessions, you can no longer turn up to a session on an ad-hoc basis.

The session leaders will have a list of attendees and contact details prior to the session.

When booking on to a session you can add your emergency contact information plus any medical requirements. It's a standard requirement that session leaders have this information, please click on Edit Details and add your DOB and emergency contact info.

You will only need to do it once, it remembers for all future sessions.

You can change it at any time.

****Important - Please note**** You also have an emergency contact in your Profile Information. The Emergency Contact Information from your Profile Info doesn't pull through when attendee information is uploaded in to sessions. Only the Emergency Contact Details added in Edit Details when booking a session is available to the session leader. You only need to do this once per session attended. Thanks for helping us keep you safe!

Who would you like to attend?
